

Inclusion Matters: Community of Practice on Implementing Inclusive Practices into ECE Settings

Do you value inclusive practices? Wanting to know more about resources, supports, and tips for implementing inclusive practices in your center?

Join us in engaging with the topic of inclusivity in ECE settings! In our two community of practices, we want to create a supportive environment for educators to share their experiences working in the early years field. From daily struggles to moments of success, we will be using the principles of the Early Learning Framework and the BC Inclusive Childcare Toolkit to guide our discussions.

This Community of Practice is for early childhood educators who are looking to create inclusive practices and create a community within early childhood education.

A Community of Practice (CoP) is a group of people who “share a passion for something they do and learn how to do it better as they interact regularly” (Eitenne Wenger). The idea behind a CoP is that through the process of sharing experiences and knowledge with others, we enable dialogue among members and begin to explore new possibilities and new ways of doing something.
